

ENVIRONMENTAL POLICY

We commit to minimize the negative impacts on environment from our activity and to use available ways and means to protection and improving of the environment.

To meet this commitment we will:

- ④ Maintain and improve environmental management system (EMS) according to ISO 14001:2015.
- ④ To engage and delegate responsibility for environmental issues at all levels of the company.
- ④ Continuously use, implement, manage and improve technological processes, products and activities in order to minimize negative impacts on environment.
- ④ Put the big accent on handling and storage of harmful substances and to collect hazardous waste before disposal.
- ④ Contribute to improving the environment by rigorous sorting and disposal of waste.
- ④ Comply or exceed applicable legal requirements, city binding regulations, requirements and expectations of customers and interested parties, voluntarily accepted commitments.
- ④ Select partners who have responsible approach to protection of the environment.
- ④ Continuously build and improve the environmental awareness of the company's employees.
